

SERVICE OVERVIEW

Amazon Web Services (AWS) Direct Connect Program

Partner
Network

Increased Bandwidth, Improved Network Performance
and Enhanced Security for Your Cloud Deployments

High-Speed Dedicated Network Options

Get the performance, visibility and security you need to power your access to AWS at all Direct Connect locations in North America with XO Communication's high-speed connectivity options from 50 Mbps up to 10 Gbps.

Whatever your location, XO's high capacity nationwide network enables you to set up a dedicated connection to any of the AWS regions throughout the US and Canada.

XO Bandwidth-on-Demand

With 1 Gbps and 10 Gbps direct connections you'll also have the option to utilize XO's dynamically available **Bandwidth-on-Demand** (BoD) feature, enabling you to more cost-effectively manage your dedicated access to the many AWS cloud resources.

With XO's Bandwidth-on-Demand service you only pay for the bandwidth you use and the dynamic aspect means no pre-scheduling of bursts is required.

Connect Directly Today

With a direct, private connection you'll optimize your network and cloud investments and avoid potential public Internet issues including having no control over network performance and increased network security challenges.

Whether you're looking for better performance and security for your cloud-based applications, or enabling large data transfers in support of your business continuity and disaster recovery plans XO can easily support your AWS Direct Connect needs.
